Instructions:

This bingo set comes with ten different bingo cards and one set of calling cards (on this page). The bingo cards and calling cards can be laminated for durability. Distribute the bingo cards to the students.

If there are more than 10 students, they can be combined into teams. The teacher (or a student) draws the calling cards at random and reads them out. Each calling card vocabulary word should be preceded (at random) by one of the letters B-I-N-G-O each time:

"B – blau"

The first player to get 5 pictures in a row in any direction wins. Have fun!
