

What else can I do to save our planet?

MY EARTH DAY PLANNING BOOK

by

The Earth is my home.
It is important to save our planet
by keeping it clean.

There are many ways we can help.
Making a plan is a good way to
start.

1.

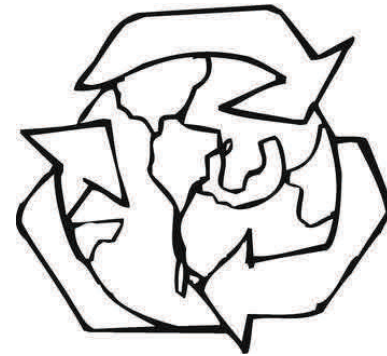

Reuse

Choose one item to
reuse or repurpose.

Item: _____

How this will be repurposed;

What materials or tools I will need
to do this:

6.

Recycling

Where I will send my recycled items?

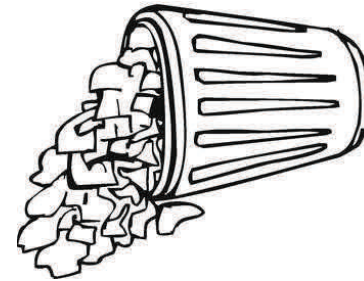

When and how often I will do this:

What tools I will need to recycle these items:

Who will help me:

NO LITTERING!

One way to keep the Earth clean is to pick up trash.

My plan of action:

Where I will pick up trash:

When I will do this:

What tools I will need:

Who will help me:

RECYCLE AND REUSE!

Instead of throwing things away, we can recycle many things we no longer want. Some items can be sent to a recycling center. Some can be donated to be used by others. We can also find ways to reuse items.

Make a plan to recycle or reuse things at home and at school.

3.

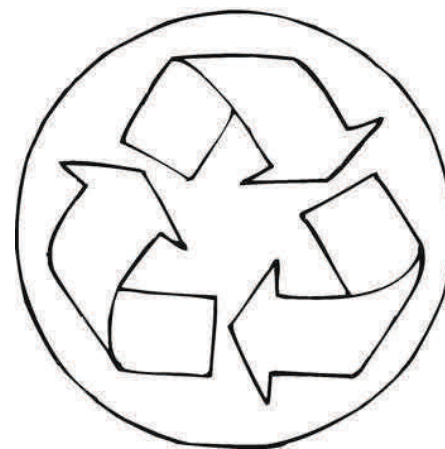

RECYCLING AND REUSE PLAN

I will recycle these things:

Home

School
